

## NEED A DOCTOR AT NIGHT OR ON A WEEKEND?

Don't worry! As an overseas student with health cover from Bupa, Allianz and Medibank, National Home Doctor Service bills your health insurance company directly. National Home Doctor Service also bulk bills Australian residents with a Medicare card, so there's **nothing to pay** for an after hours doctor home visit.

### ▶ WE ARE AVAILABLE 365 DAYS A YEAR

As most GP clinics are closed at night, weekends and public holidays it can be difficult to get an appointment when you need one. Our doctors are available seven days a week to see patients.

### ▶ WE CAN HELP YOU RECOVER QUICKER

Our doctors treat a wide range of short term illnesses and injuries. Best of all, our doctors carry a range of complimentary starter-pack medications, saving you the inconvenience of trying to find a pharmacy late at night.

### ▶ OUR DOCTORS WILL COMPLETE OVER 1,000,000 PATIENT VISITS THIS YEAR

National Home Doctor Service is Australia's largest home visiting doctor service. Our network of over 500 doctors helps relieve pressure on hospital emergency departments, giving people access to treatment in the comfort of their home.

### CALL 13 SICK (7425) TO MAKE A BOOKING

Our call centre is open for bookings:

- From 4pm weeknights
- From 10am on Saturdays
- All day Sundays and public holidays

### HELP US SPREAD THE WORD

Many people are unaware of the options available when they are unwell at night or on weekends and as a result either try to 'ride it out' or go to a hospital emergency department' for a non-emergency ailment. Help us spread the word about National Home Doctor Service:

- ▶ Tell a friend
- ▶ Like us on Facebook or Twitter
- ▶ Download our App

All the best of health for 2015!
